#### Vision

The Center for Teaching and Learning Excellence fosters a community of teachers supporting scholarship of teaching and learning and focused on student success.

#### Guiding Principles

**COLLABORATION** -engage *with you* to find a plan that works *for you*.

**SUPPORT** - provide a variety of services to *facilitate integration* of best practice teaching methods into your teaching practice.

**GROWTH** - employ a *scaffolding approach* to challenge faculty to continuously improve their instruction and teaching.

#### Common teaching challenges...

- ✓ I'm new to teaching. Where do I begin?
- ✓ I'm having trouble designing a syllabus. What makes a syllabus strong? What information must be included?
- ✓ I want my class to be inclusive. What does it mean to be inclusive? How do I pursue that goal?
- ✓ I want to improve my teaching. Where can I receive feedback on my methods and suggestions to improve?
- ✓ I know great technological tools exist to support teaching. Which one/s would be best for me and my students?
- ✓ My department has ideas on changes we want to make. Is there someone who can facilitate these meetings and assist us in achieving our goals?
- ✓ My department is thinking about its curriculum. Where can we find support for the design phase?
